How does Guaranteed Acceptance Life Insurance work?

Colonial Penn's popular Guaranteed Acceptance Whole Life Insurance offers coverage units. A unit of coverage corresponds to the life insurance benefit amount that an individual can purchase. Coverage amounts are based on age, gender (in Montana, age only) and state of residence. The price per unit is a fixed amount. Multiple units can be purchased to help build a larger death benefit.

Our most popular coverage option is for those age 50-85 (in most states). Guaranteed Acceptance means you can't be turned down for any health reason. Locked-in premium rates start at \$9.95 a month.

Guaranteed Acceptance has a 2 year reduces death benefit equal to premiums paid plus 7%
